

About our Speaker

Name: Ashish Lele

Where does s(he) work: CSIR-National Chemical Laboratory

What does s(he) do: Presently I am Chief Scientist in CSIR-NCL. I am interested in developing technologies in energy and healthcare, and in investigating the structure and properties of plastics.

Where and what did s(he) study

B.Chem. Eng. (UDCT, Mumbai) 1989

PhD in Chemical Engineering (University of Delaware, USA) 1993

Research Associate (University of Cambridge) 2001

What are your interests (in your job, and outside):

Pursuing research relevant to industry in the area of plastics and other soft materials. Participating in large interdisciplinary technology development projects in chemical and allied sciences.

Listening to Indian classical music and old hindi film songs
