

About our Speaker

Name: Anuya Nisal

Where does s(he) work: National Chemical Laboratory

What does s(he) do: Scientist. We work on structure-property, processing and performance relationships of natural polymers for biomedical applications.

Where and what did s(he) study:

- **Ph.D. in Chemical Engineering from IIT, Bombay, India**
- **Master of Science, Materials Science and Engineering, University of Delaware, USA**

What are your interests (in your job, and outside):

- **Developing biomedical products**
- **Entrepreneurship**
