

About our Speaker

Name: Durba Sengupta

Where does she work: NCL, Pune

What does she do: I am a Ramalingaswami Fellow and investigate the processes that take place at the cell membrane by computer simulations.

Where and what did s(he) study: I have studied in Delhi until my BSc (Chemistry), followed by an MSc at IIT-Bombay (Mumbai). I did my PhD in Heidelberg, Germany and my post doctoral research at Groningen, Netherlands.

What are your interests (in your job, and outside): I enjoy understanding the scientific principles underlying real life processes, from my morning tea to medicines to movies!
