

# About our Speaker

**Name:** Dr. Rahul Sharad Bhambure

**Where does s(he) work:** CSIR-National Chemical Laboratory, Pune

**What does s(he) do:** Senior Scientist,

I work in the area of process development for protein drugs molecules used for treatment of various diseases like cancer, diabetes etc.

**Where and what did s(he) study:**

Post-Doc in Chemical and Biomolecular Engineering,  
University of Delaware, USA

PhD in Chemical Engineering,  
Indian Institute of Technology, Delhi, India

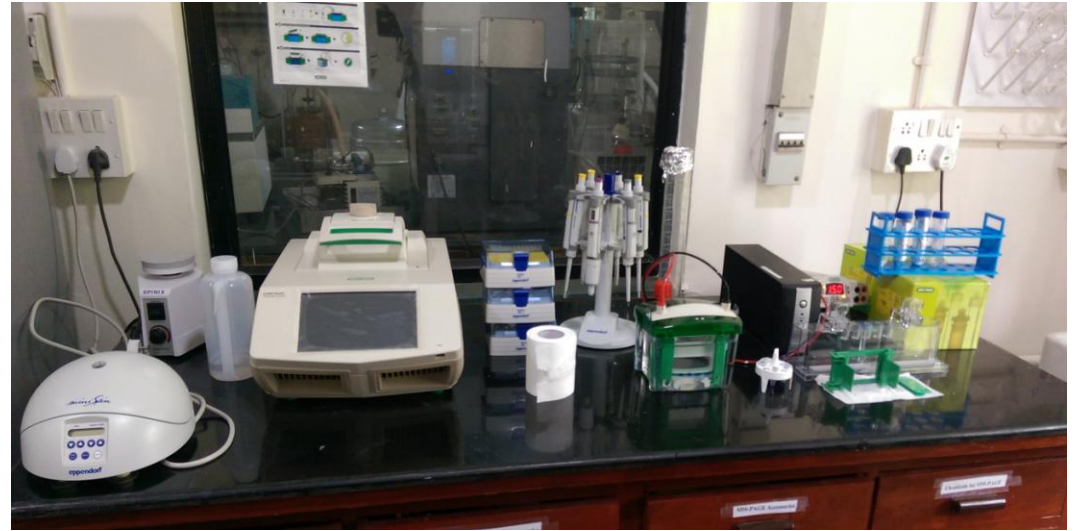

**What are your interests (in your job, and outside):**

Reading, watching documentaries on various events and places

# Bioprocess Engineering Laboratory at NCL

Agilent 1260 HPLC system

Biorad electrophoresis and western blot system
